NRO REVIEW COMPLETED

COR-1262

Copy 4 of 4.

31 July 1961

MEMORANDUM FOR : Chief, Special Projects Branch, DFD  
SUBJECT : Launching Schedule CORONA/SAMOS  
REFERENCE : COR-1248, 28 July 1961

1. The latest schedule information available from the Office of the Under Secretary of the Air Force indicates Agena 1113, which I presume corresponds to Mission 9022, is scheduled for launch on 22 August. I discussed this with Dr. Charyk's staff and have been given assurance that with the present schedule there will be no conflict between SAMOS and 9022.

2. The best available current scheduling information indicates launches and payloads as follows:

|              |                |
|--------------|----------------|
| 2 August     | C Prime        |
| 22 August    | C Triple Prime |
| 29 August    | C Triple Prime |
| 8 September  | C Triple Prime |
| 28 September | Argon          |
| October      | Argon          |

Payloads beyond this point will be decided at a later date.
